The candidates after a day's rest loomed up like 4-time winners and although the enthusisiasm which filled the breasts of the people during the day had partially subsided they now appear to be settled down to the condition of calm consideration of facts and figures.

The People's Party of Cochise county in convention assembled this let day of October, 1806 make the following declarations of principles:

 We approve and endorse the platform of the National People's Party adopted at St. Louis en July 22rd 1896 dent by the Chicago convention

2. We heartily approve the platform adopted by the People's Party of Arizona at Phenix on August 20th 1896 and heartily endorse the nomination of Hon. Wm. O'Neil for delegate to congress and pladge to him our best efforts for his election.

3. We denounce as unfit to be trust-3. We denounce as unfit to be trusted by the people, the men through whom, the present interest bearing debt of this county (about \$200,000) has been created and we particularly denounce the system of extortion, peculation, jobbery, corruption and bribery which with few exceptions has inhered on county offices for sixteen years, resulting in a neccessary tax levy of 54 22 sulting in a neccessary tax levy of \$4.22 on the hundred dollars notwithstanding that the people have every year paid more taxes than would be sufficient to govern a far larger and more popu-lous county if honestly administered.

d. We have placed in nomination for county offices, men chosen from amongst the people, for the soul reason of our belief in their honesty, and fitness on the principle that the office should seek the man carefully avoiding all men even remotely connected with former tax-eating and county swindling.

5. If our candistes or any of them should be elected, we promise to watch them and use our best endeavors to see that they serve the people faithfully and honestly without extortion, fraud or oppression, and that they do not de-generate into county ringsters, and plundering officials, and if they should so degenerate we promise to be first to

5. We favor statebood for Arizons at the earliest possible date, but not under the constitution adopted by our so-called Democratic convention five years ago, as we believe it to be a bood-lers constitution, specially manufactur-ed in the interests of bosses, ringsters and tax esters, and we therefore earnestly urge our delegate to congress to introduce an enabling act, so that the people may form a constitution that will not be a disgrace to this, and a greivious burden to succeding generations.

7. We condemn the practice of ter-ritorial and county officers, in soliciting or receiving, railroad passes, as we consider all such favors, as incompat-ible with independent and impartial

8. We invite the co-operation and sesisstance of all honest citizens regardministration of county and territorial affairs in the interest of all the people.
